WebWealth.me

Full-stack Web Developer

Self-driven web development for remote clients.

- Dealt directly with clients to discuss project requirements, developed mockups of site pages and converted them into active WordPress websites. (see portfolio.mikemind.me)
- Converted Mockups from PSD to HTML with an emphasis on responsiveness.
- Assisted clients with troubleshooting issues with their themes, sites, plugins and so on.
- Developed custom WordPress themes, page templates and plugins
- Troubleshot issues with pre-existing themes and plugins
- Throughout that time, I've worked remotely for a number of exciting startups and established companies.
